About Me

Certified Computer Engineer passionate about Data Science and Machine Learning.
Apart from tech, I enjoy strategic chess and creative hobbies like photography and video editing.

Projects

- Intelligent Diet Planner [link]- is a website made using django framework and trained with Machine learning algorithm that provides meal options for user acc. to their requirements.

- Visa Requirement Prediction [link] - used Classification ML algorithm to predict whether traveling from country A to country B requires a visa or not.

- Laptop Price Prediction [link] - used different Machine Learning models to predict the Price of Laptop on the basis of different features including RAM, GPU, Manufacturer, Storage etc.

- Book Detail Scraping [link] - performed webscraping using BeautifulSoup and Request module using Python and exported in Excel sheets.

- C2C E-Commerce website [link] - enables user to sell & buy goods from other user directly without involvement of third party.

Technical Skills

- HTML/CSS
- Python
- SQL
- Data Cleaning & Preprocessing
- Data Visualization(Matplotlib & Seaborn)
- Machine Learning Algorithm
- Web Scraping
- Mathematics
- Git/Github

Other Skills

Familiar with Nepali, English & Hindi Language.

Adaptable to team working.

Good in Communication & maintaining relationships.

Education

- Bachelor of Computer Engineering (2018-2023)
    Cosmos College of Management & Technology(Pokhara University)

- +2 Science(2016-2018)
    National Integrated College (HSEB)
